More Earthquakes

MESSINA, Jan. 5.—Earth shocks are continuing here although they are diminishing in intensity. At night especially they are frequently felt. The fires in the city also are being gradually extinguished.

The official figures compiled thus far show that 14,000 have been buried in ruins, that 9,000 refugees have left the city and that 900 persons still remain here. Instead of excavating in an endeavor to find the bodies buried beneath the ruins it has been proposed that every house in which it is believed persons are buried shall be covered with quicklime.

1000 Wounded

The Associated Press correspondent has made a visit to Reggio and carefully inspected the town. The number of persons killed there and the damage done to property was much less than at Messina. Only the central section of the city was damaged. The official figures at Reggio show that 1,000 were killed and the refugees at 700. The number of dead in the ruins is not known.

Reggio has been practically evacuated except for the troops and the marines from two British ships, who are causing the populace to evacuate. Hills San Giovanni which is considered to have been the center of the earthquake.

Appeals for Aid

Numerous persons still living were taken to live from beneath the ruins while the voices of others could be distinctly heard appealing for aid. Within a few days the rescue work at Reggio will have ceased. Then the latter buildings will be razed and the bodies that have been buried will be burned.

The Associated Press had the first correspondent on the scene at Messina. He found a condition of utter confusion existing. He did not know of earthquakes. The Italian soldiers were overwhelmed and in a state of utter confusion. Wounded men were lying in the streets. The ruins in squares numbering from 30 to 50 men. Little work was done until the arrival of the crews from the Russian and British warships which arrived Sunday. Especially was this true of the Russians.

Warships Give Aid

The bodies of the dead lay everywhere on the surface of the ruins and limbs protruded from the ruins. The small first-aid stations were overcrowded with injured and scores of other were hastily established as soon as possible by the British, French and German ships.

The number of the survivors were increased by the arrival of the British and French ships. The British ships were upon their knees, begging for food while the minutes walk beyond a distance of miles with the fruitless hope for their safety. The British ships were in this small haven of refuge.

45 Earth Shocks

Constructive light shocks followed the first of the earthquakes until forty-five were recorded. The Associated Press correspondent saw one of them. The shock was of the remaining walls of the city, the shaking was early intensifying the panic of the populace.

Reactionary Policy in China.

Reactionary troubles seem to be hovering over the imperial court at Peking as the result of the recent dismissal from office of Grand Councilor and Commander-in-Chief of the Army Yuan Shi Kai and the issuance by the Regent, Saturday, of a decree appointing Llang Tun Yen, former Customs Tactat, as his successor on the Foreign Board. The excuse given for deposing Yuan Shi Kai was ill health, but the fact that he is now in Tientsin, one of the treaty ports forty miles away from the imperial capital, and has placed himself under British protection there, gives the lie direct to the officially announced cause of his removal.

At the foreign legations at Peking a more serious view of the cause of dismissal is taken. The deposed minister was recognized by the representatives of the United States, Great Britain and Germany as fair and equitable in his treatment of foreign interests in China. His removal from office is therefore regarded as tantamount to an affront to the powers and giving encouragement to the revival of the anti-foreign movement which the action taken by the late Dowager Empress, initiating a reform policy and laying the foundation for a constitutional government, had apparently suppressed.

There is a disposition on the part of the resident ministers of the three powers named to make a representation of disapproval of the action taken by the Regent. But there is a lack of unanimity among other foreign representatives as to whether the welfare of foreign interests is technically involved in the change made in the personnel of the Foreign Board. Although all of them are agreed that the peace of China is menaced by Yuan Shi Kai's dismissal, there is a strong opposition in the foreign diplomatic corps against interference at present, the ground being taken that such a course cannot be justified unless more serious events occur.

The situation is evidently tense in the extreme, and the recent strengthening of the troops guarding the imperial palace and the refusal to admit into it even the highest officials without passes has given rise to the suspicion that the government fears the development of an anti-dynastic plot.

Two New 'Dead Cities.'

As a direct result of the Sicilian-Calabrian catastrophe of nine days ago Italy has added two modern dead cities to the three ancient ones it previously possessed, as it has been decided to remove all of the living remaining in Messina and Reggio and abandon them to the dead which are buried under their ruins. But the two new dead cities differ from the ancient dead cities of Pompeii, Herculaneum and Stabia, which were destroyed in the year A. D. 79, insofar that they stand exposed on the surface of the land only partially buried in their own ruins, whereas the three cities of antiquity were entombed in the ashes and cinders and volcanic mud which Vesuvius suddenly vomited from its fiery crater. And so complete was the burial of Pompeii that for sixteen hundred years its site remained unknown.

The occupation of Messina and Reggio by the living has become untenable because of the number of the dead lying under the ruins and their destruction has been so complete that rehabilitation is now out of the question. The efforts of the Italian government are now being directed to the rescue of as many of the unfortunate as are still living under the ruins, and to the preventing of a pestilence growing out of the decay of the bodies of the dead. The two cities have been suddenly turned into enormous cemeteries. In the ruins of Messina 100,000 bodies—one-third of its population ten days ago—are buried, and in Reggio one-half of its population of 30,000 lie under the wreckage of its buildings.

The Cuban Liberal party, headed by the sons of the more prominent leaders in the revolution which resulted in the independence of the "ever-faithful isle," want to make Daniel Maceo, the son of General Maceo, who was killed in the revolutionary war, their candidate for the presidency of the republic. The young man, who has just attained his majority, has of late been a resident of Los Angeles, where a delegation has arrived on the express mission of getting his consent to become a candidate, as he is regarded as the only man capable of leading the Liberal party to victory at the polls. But Maceo is doing the unprecedented thing in the history of the Latin republics of eluding the tender of the honor, and the Cuban junta's delegates who arrived at Los Angeles yesterday discovered, to their chagrin, that he left there for parts unknown on Thursday to evade an interview.

At a caucus of Democratic Assemblymen and Senators held at Sacramento Sunday, it was unanimously decided to give Harry Flannery the complimentary party vote for United States Senator. This will be the second shock to James D. Phelan's political ambitions this year, the first having been received by him when his brother-in-law, Frank J. Sullivan, was defeated at Fresno by Flannery for Presidential elector from the Fifth Congressional District.

So far the seasonal rainfall has been lighter than it was last year; but its distribution has been unusually favorable to the farming interests, as most of the precipitation has been in a way to enable the soil to absorb the whole of it. Comparatively little has gone to waste in the water courses, and the later showers have been accompanied by warm growing temperatures.

Oakland is beginning to gain a reputation for big apartment house construction. It has already the biggest structure of the kind west of Chicago and others of a similar character are about to be erected at once. The more the merrier, as such structures are positive evidence of steady growth in population.

There is something ludicrously ironical in the imperial decree issued by the Regent of China dismissing Yuan Shi Kai from office on the ground that he is afflicted with rheumatism of the leg and the accompanying statement that the imperial clemency toward him is thereby manifest.

Members Welcome A. P. Stiefvater to the Council of the City Fathers.

Albert P. Stiefvater, whom Mayor Mott appointed councilman for the Third Ward, made his bow to the council last night. He was welcomed by President Haysworth in the following terms:

"It is a pleasant duty, Mr. Stiefvater, for me to welcome you on behalf of myself and the City Council. You, from your long experience as a reporter are familiar with the ground which we are expected to cover. This knowledge will doubtless stand you in good stead during your term of office. OAKLAND HAS 225,000 POPULATION, SAYS COUNCIL

Councilman Jackson last night, at a meeting of the city council, introduced a resolution requesting the Board of Health to make a study of the population of Oakland, which making out its reports, to state that the population of Oakland is 225,000 and a good deal less.

The Board of Health has been guilty of putting the figure as low as 165,000, which would make it appear that we have a greater death rate than we have. The board has the Chamber of Commerce and other experts on statistics.

One of the reasons for the low figure, said Councilman Jackson, is that the Board of Health should become alive to the situation," said Dr. Jackson.

Councilman Everett and Councilman Ponderton thought that the figures were a little too high. The resolution, on being put was carried, and hereafter the Board of Health may be expected to put Oakland in the class of cities of 200,000 and over.

RACETRACK BATTLE OPENS
AMONG THE SENATORS

Lively Contest Promised All Along the Line

SACRAMENTO, Jan. 5.—Caucus politics of the senate indicates that the senators now elected in the state are likely to have a lively contest among themselves. The race track gamblers are not likely to be disappointed in this regard.

This indicates that two senators have been won over to a favorable attitude toward the turf since the legislators arrived in Sacramento.

Two days before the session opened the line-up in the senate was not all that clear. It is claimed that some members of the house are preparing an anti-race track bill.

Attorney Frank Murphy, who after being tried in the same district court, was acquitted by the jury. The case was heard in the case of L. A. S. Blake, who was last week sentenced to four years in San Quentin for the same offense.

Newburn was jointly accused with Attorney W. T. Cook of attempting to bribe the jury in the case of the Ruff v. Ruff.

CONSTABLE
SLAIN BY
COWBOY

"ARIZONA JACK" TOO QUICK FOR OFFICER

Fires Fatal Shot From Hip While Covered by Weapon of Man Who Seeks to Take Him to Prison.

LOS ANGELES, Jan. 5.—While attempting to arrest "Arizona Jack" Ellison, a miner and cowboy of Imperial valley, Deputy Constable Charles Demandville was shot and killed last night at Newhall, this county, and his body was found lying in the street early this morning.

As soon as Demandville's body was found a posse made a fruitless search for Ellison. As soon as the posse was formed Ellison had a row with a saloon keeper in Newhall and then fled to the place.

Drawing two revolvers he drove the constable out of the place and ran the constable out to the back door. The bartender telephoned to Demandville and when he reached the scene on horseback, Ellison had left after taking two drinks of whiskey.

The constable started after him and found him several blocks away. He approached Ellison and leveled his revolver at him. Ellison, however, did not turn up his hands. He fired from his hip, the bullet entering the constable's abdomen, and as he fell Ellison shot him again, piercing his heart.

Accused murderer of Boas appears in court. (Special to The Tribune) SAN FRANCISCO, Jan. 5.—John Walter Boas, accused of the murder of Henry Paine by means of poison sent in the mails on Monday in a letter appeared in Judge Collins' court this morning for trial.

Neither of his attorneys, Smagoff and Spaulding, was present, but by stipulation with the district attorney, the case was put over until January 12 at 2 o'clock, when it will be heard with a jury.

Handcuffed criminal escapes from officer. SAN FRANCISCO, Jan. 5.—Had he not feared that he would lose some important evidence, Detective Sergeant O'Donoghue, who had just arrested a criminal who escaped from him last night, O'Donoghue had arrested him and handcuffed him without any trouble. His prisoner, however, offered no resistance and went quietly until he was taken to the station.
